The [Interest Group on Migration and Refugee Law](#) (MigRefLaw) is one of the interest groups of the [European Society of International Law](#). The IG focuses on the law and policy of states and international organisations with regard to people who seek entry to their communities. The movement of people across borders is a defining reality of our time. This IG aims to provide a forum for discussion on the legal principles and processes governing the movement of people as well as their reception in host communities. By doing so, the group hopes to build a shared knowledge base among ESIL members interested in migration and refugee law.
